Skills

Front-end development: React, TypeScript, Astro, Tailwind CSS, Jest, Testing Library, Next.js, JS, HTML, CSS
Software engineering: Python, Node.js, Rust, AI & ML, Docker, SQL, MongoDB, Terraform, AWS, OOP, TDD
Collaboration and other: Git, Jira, Agile (Scrum, Kanban), CI/CD, SEO, OpenAPI, Figma, English, Polish

Experience

Software Engineer Intern – Atlassian July 2023 – Sept 2023

- Worked as a front-end intern in the Jira department, contributing to the Jira Forge platform.
- Implemented and maintained existing modular components using React and TypeScript.
- Delivered features using CI/CD, feature flags, and established rollout procedures, ensuring safe deployments.
- Improved monitoring solutions with Splunk and Terraform, reducing time spent on manual dashboard tracking.
- Cooperated with developers, UI/UX designers, and content designers to align design and implementation.
- Participated in peer code review as a reviewer and a reviewee, improving overall system code quality.
- Took part in various Scrum ceremonies, as well as cross-team syncs to support Agile feature delivery.
- Wrote unit tests, technical documentation, and Confluence design decision documents to aid maintainability.

Education

MSc in Applied Computer Science – Wrocław University of Science and Technology Feb 2024 – July 2025

- Architected search engines, big data workflows, and web applications. Grade: 5.5 (excellent)
- Applied machine learning to optimize various code review and testing processes.
- Wrote a thesis on test case prioritization, contemplating its theoretical and practical use.
- Prepared two articles submitted for publication in scientific journals.

BSc in Applied Computer Science – Wrocław University of Science and Technology Oct 2020 – Jan 2024

- Built various mobile and web applications in ASP.NET and React. Grade: 5.5 (excellent)
- Designed, optimized, and deployed SQL and NoSQL database systems.
- Used Python machine learning libraries to solve classification and regression tasks.
- Took part in group projects using collaboration tools, like Git and Jira.
- Designed and developed a senior-assistance mobile app as a final project.

Courses

CodersCamp powered by LiveChat – CodersCrew Oct 2021 – May 2022

- Worked in a five-person Scrum team, building multiple full-stack web apps.
- Wrote front-end and back-end TypeScript code; provided tests and documentation.
- Took technology proficiency exams and became certified with honors.

Projects

Adwokat Wałbrzych: a website for a local law firm, visited by hundreds monthly. kancelariawalbrzych.pl
tchojnacki.dev: a personal portfolio and blog website, with similar monthly traffic. [tchojnacki/tchojnacki-dev](https://tchojnacki.dev)
Senso Mobile: a React Native app for elder care; my engineering thesis project. zpi-2023/senso-frontend
JakPrzyjade: a microservice-based public transit ticketing app. PWR-ACS-SE-24/SoftwareSystemDesign
